

LAUNDRY PRO™

BY AERUS

The Smart Solution For Doing Laundry

We turned to nature to come up with a better way to do laundry.

Laundry Pro is better for your laundry, better for your family and better for the environment... and it will help you save money too.

Laundry Pro incorporates the power of our revolutionary, exclusive ActivePure® Technology with the cleaning action of activated oxygen to lift dirt and grime away from the fibers of fabric and prevent the growth of odor-causing bacteria. Laundry Pro is an amazingly effective cold water laundry system for residential use.

No Need For Detergent*

Oxygen, peroxides, and other gases bubble into clothing to lift away dirt and odors. An all-natural pretreater may be used for really tough stains.

Makes Clothes Softer

Build-up on towels, linens, and your clothes can weigh them down. Over time, Laundry Pro lifts old detergents out of fibers, restoring their natural softness.

Clean Without Bleach

Laundry Pro combines the power of our revolutionary, exclusive ActivePure Technology, Certified Space Technology, with the cleaning action of activated oxygen to lift dirt and grime away from the fibers of fabric and prevent the growth of odor-causing bacteria.

No Maintenance

Laundry Pro requires no cleaning or maintenance to operate at peak performance.

Better For Sensitive Skin

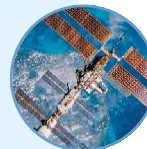

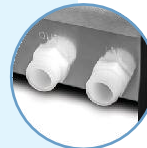

Laundry Pro also helps eliminate the itching and redness caused by allergies due to detergents embedded in clothing.

Protects Your Home

The Laundry Pro monitors its operations with status indicator lights. The lights glow blue during normal operation and will indicate when attention is required.

No Worries

Ownership of the Laundry Pro is worry free with a 2-year limited warranty.

Ease of Use

Just put your clothes in the washing machine, set for cold water only, and turn your washer on. The blue status lights on the Laundry Pro tell you it's working.

Easy to Install

Laundry Pro connects to your existing washing machine using standard hoses. No modifications or additional plumbing required.

Earth-Friendly

Cold water only and no detergent bottles to throw away make Laundry Pro a better choice for cleaning clothes while protecting the Earth.

Whiter Whites, Brighter Colors

Laundry Pro keeps clothes looking their best with the cleansing power of oxygen.

Certified Space Technology

The ActivePure Technology built into each Laundry Pro is based on a variation of the technology originally developed for use on the International Space Station and is recognized as the exclusive Certified Space Technology by the Space Foundation in its category.

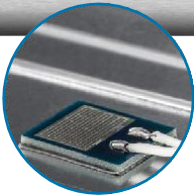

Laundry Pro is designed, engineered, and made in the USA for reliability and durability

WORRY FREE
2-year limited warranty

LAUNDRY PRO™

BY AERUS

Laundry Pro offers peace of mind with internal electronic leak detection

The Smart Solution for Doing Laundry

Laundry Pro ensures that you aren't absorbing anything from the fabrics you touch, which helps you to avoid the allergic reactions that can be caused by detergents. Based on processes used for over a decade in hospitals, hotels, and laundromats, Laundry Pro infuses cold water with oxygen, peroxides, and other gases to bubble and lift dirt and grime from cloth fibers, leaving clothes brighter and cleaner.

SPECIFICATIONS

technology	ActivePure Activated Oxygen
power usage	0.4W (standby) 1.3W (operating)
power adaptor input	AC in: 100-240V ~50/60 Hz 0.8A
power adaptor output	DC out: 12V 2.5A

operating temperature	50°F to 100°F
operating humidity	20% to 70%
size	17.25" wide x 9.06" tall x 4.05" deep
weight	4.486 lbs

We offer a 2-year limited warranty on the Laundry Pro.

*Note: Laundry Pro reduces or eliminates the need for laundry detergent. While many users find that Laundry Pro alone effectively cleans their laundry, you may find it necessary to pre-treat or use a reduced amount of detergent to remove certain stains. If you find that detergent is necessary, we recommend using 1/8th the amount you previously used before your Laundry Pro purchase.
 **2009 public data found through national organizations such as the US Environmental Protection Agency and Department of Energy. Costs shown are averages and actual costs may be higher or lower depending on the utility rates for your geographic location and laundry equipment used.

No Detergent*. No Hot Water. More Savings.
