

**TSX-V; GROW, OTCQB; BLONF, Frankfurt; 4021**

***Delivering CO2 to Growers Everywhere™***

**50 billion sq. ft. of Global Greenhouse capacity**

**Only 8 billion sq. ft. can use CO2 gassing**

**Other 42 billion can now use CO2 Delivery Solutions™**

**Patent protected CO2 Delivery Solutions™ naturally and safely dissolve CO2 gas into water creating an aqueous CO2 solution. When misted on plants, it improves crop yields by the same ~30% that greenhouses gassing CO2 achieve while providing additional plant Perimeter Protection™**

- **Demonstrated on** hemp, cannabis, lettuce, microgreens, peppers, flowers, biopharma plants.
- **Demonstrated Perimeter Protection™** resistance to micro pathogens - *E. coli* and powdery mildew.
- **Up to 90% less CO2 gas required** in aqueous form to achieve the same yield results as CO2 gassing.
- **Patent protected** CO2 Delivery Solutions™ can adapt to most indoor irrigation systems.

## **2020 Covered/Greenhouse Markets for CO2 Delivery Solutions™**

- **US & Canada** 1.5 billion sq. ft. (100M for cannabis and hemp plants, 300M for food plants)
- **Israel** 1.5 billion sq. ft. (current focus on cannabis plants)
- **Middle East** 1 billion sq. ft. (focus on greenhouse vegetables and fruits)
- **UK, NL and Brussels** 0.8 billion sq. ft. (current focus on of greenhouse vegetables and fruits)
- **Colombia and El Salvador** 0.8 billion sq. ft. (focus on flowers and greenhouse vegetables)

### **Revenue Model**

- Custom designed and installed systems sold or leased based on client's square footage and irrigation infrastructure.
- Buy-Out purchase or 5-year Lease-to-Own options and Service & Maintenance plans.

### **Business Development Model**

Sales Reps and Agri-Industrial partners now covering North America, Middle East, select EU and select Central and South American countries. Other regions and countries being pursued post further Ag-Industrial partner selection.
