**As at and for the 3 months ended  
March 31, 2021 and 2020**

### **NOTICE TO READER**

**The accompanying unaudited interim consolidated financial statements of CO2 GRO Inc. (the "Company") have been prepared by and are the responsibility of management. These unaudited interim consolidated financial statements as at and for the three months ended March 31, 2021 and 2020 have not been reviewed by the Company's auditors.**

## MANAGEMENT'S RESPONSIBILITY FOR FINANCIAL REPORTING

The accompanying unaudited interim consolidated financial statements of CO2 GRO Inc. are the responsibility of the management and the Board of Directors (the “**Board**”) of the Company and have been prepared in accordance with the accounting policies disclosed in the notes to the unaudited interim consolidated financial statements. Where necessary, management has made informed judgments and estimates in accounting for transactions which were not complete at the statement of financial position date. In the opinion of management, the unaudited interim consolidated financial statements have been prepared within acceptable limits of materiality and are in accordance with International Accounting Standard 34 Interim Financial Reporting of International Financial Reporting Standards using accounting policies consistent with International Financial Reporting Standards appropriate in the circumstances.

The Board is responsible for reviewing and approving the unaudited interim consolidated financial statements together with other financial information of the Company and for ensuring that management fulfills its financial reporting responsibilities. An Audit Committee assists the Board in fulfilling this responsibility. The Audit Committee meets with management to review the financial reporting process and the unaudited interim consolidated financial statements together with other financial information of the Company. The Audit Committee reports its findings to the Board for its consideration in approving the unaudited interim consolidated financial statements together with other financial information of the Company for issuance to the shareholders.

## MANAGEMENT'S ASSESSMENT OF INTERNAL CONTROL OVER FINANCIAL REPORTING ("ICFR")

Management is responsible for establishing and maintaining adequate internal control over the Company's financial reporting.

As the Company is a Venture Issuer (as defined under *National Instrument 52-109 Certification of Disclosure in Issuers' Annual and Interim Filings*) (“**NI 52-109**”), the Company and Management are not required to include representations relating to the evaluation, design, establishment and/or maintenance of disclosure controls and procedures (“**DC&P**”) and/or ICFR, as defined in NI 52-109, **nor has it completed such an evaluation**. Inherent limitations on the ability of the certifying officers to design and implement on a cost-effective bases DC&P and ICFR for the issuer may result in additional risks of quality, reliability, transparency and timeliness of interim and annual filings and other reports provided under securities legislation.

## Notes to Unaudited Interim Consolidated Financial Statements

(expressed in Canadian dollars)

As at and for the 3 Months Ended March 31, 2021 and 2020

---

### 1. General information and going concern

CO2 GRO Inc. (“**CO2 GRO**” or the “**Company**”) was incorporated under the provisions of the Business Corporations Act (Ontario) on September 17, 2010, and trades on the TSX Venture Exchange (“**TSXV**”) under its trading symbol, “**GROW**”, on the OTCQB market under its trading symbol “**BLONF**” and on the Frankfurt stock exchange under its symbol “**4021**”.

**Dissolved CO<sub>2</sub> plant-enrichment platform:** CO2 GRO’s sole focus is commercializing its patent-licensed CO2 gas infusion technology and its patent-pending US PTO CO2 Delivery Solutions system (“**CO2 Delivery Solutions™**”), both of which form the Company’s saturated CO2 solutions plant platform.

The registered and head office of the Company is located at 40 King Street West, Suite 5800, Toronto, Ontario, M5H 3S1, Canada.

These unaudited consolidated interim financial statements (the “**Interim Consolidated Financial Statements**”) have been prepared using International Financial Reporting Standards (“**IFRS**”) applicable to a going concern, which contemplates the realization of assets and settlement of liabilities as they fall due in the normal course of business for the foreseeable future. The Company is in the development stage and has not yet realized profitable operations and has relied on non-operational sources of financing to fund operations. CO2 GRO’s ability to continue as a going concern is dependent on successfully executing its business plan, which may include the raising of additional funds. The Company will continue to seek additional forms of debt or equity financing as appropriate, but it cannot provide assurance that it will be successful in doing so. These material uncertainties lend doubt as to the ability of the Company to meet its obligations as they come due and, accordingly, the appropriateness, ultimately, of the use of accounting principles applicable to a going concern. The Interim Consolidated Financial Statements do not reflect the adjustments to the carrying amounts of assets and liabilities and the reported expenses and consolidated statement of financial position classifications that would be necessary if the Company were unable to realize its assets and settle its liabilities as a going concern in the normal course of operations. Such adjustments could be material.

### 2. Basis of preparation

#### 2.1 Statement of compliance

These Interim Consolidated Financial Statements, including comparatives, have been prepared in accordance with *International Accounting Standards (“IAS”) 34 ‘Interim Financial Reporting’* using accounting policies consistent with the IFRS issued by the International Accounting Standards Board (“**IASB**”) and Interpretations of the International Financial Reporting Interpretations Committee (“**IFRIC**”).

The Interim Consolidated Financial Statements were approved and authorized for issuance by the Board on May 27, 2021.

#### 2.2 Basis of presentation

The Interim Consolidated Financial Statements have been prepared on a historical cost basis with the exception of financial instruments which are measured at fair value. In addition, the Interim Consolidated Financial Statements have been prepared using the accrual basis of accounting, except for cash flow information and are presented in Canadian dollars, the Company’s functional currency.

## Notes to Unaudited Interim Consolidated Financial Statements

(expressed in Canadian dollars)

As at and for the 3 Months Ended March 31, 2021 and 2020

---

The preparation of the Interim Consolidated Financial Statements in accordance with IFRS requires the use of certain accounting estimates. It also requires management to exercise its judgement in the process of applying the Company's accounting policies.

### 2.3 Basis consolidation

The Interim Consolidated Financial Statements consolidate the accounts of the Company and all its subsidiaries. The Company has the following inactive, wholly-owned subsidiaries: Pure Polar Canada Inc., CO2 GRO (US) Inc., BlueOcean Shrimp Products Inc., Asta NutraSciences Inc., BlueOcean Algae Inc., Solutions4CO<sub>2</sub> USA, Inc., 70717 Newfoundland and Labrador Limited ("70717") and virtually inactive wholly-owned subsidiary, Pure Polar Labs Inc. ("Pure Polar"). All intercompany transactions, balances and unrealized gains and losses from intercompany transactions are eliminated on consolidation. Subsidiaries are entities over which the Company is exposed to, or has rights to, variable returns as well as the ability to affect those returns through the power to direct the relevant activities of the entity. The existence and effect of potential voting rights that are presently exercisable or convertible are considered when assessing whether the Company controls another entity. Subsidiaries are fully consolidated from the date on which control is obtained by the Company and are deconsolidated from the date on which control ceases.

The Company owns a 50% equity interest in 2453969 Ontario Inc., an inactive joint arrangement. The Company accounts for this arrangement using the equity method in accordance with IFRS 11 'Joint Arrangements' ("IFRS 11").

### 2.4 Reclassifications

Certain comparative amounts have been changed to conform with current reporting classifications. These reallocations have not affected previously reported loss and comprehensive loss.

### 3. Adoption of new and revised standards and recent accounting pronouncements

Certain pronouncements were issued by the IASB or the IFRIC that are mandatory for accounting periods commencing on or after January 1, 2021. The following IFRS amended standards have been issued but not yet adopted, as they are being evaluated to determine their impact on the Company.

IFRS 10 – Consolidated Financial Statements ("IFRS 10") and IAS 28 – Investments in Associates and Joint Ventures ("IAS 28") were amended in September 2014 to address a conflict between the requirements of IAS 28 and IFRS 10 and clarify that in a transaction involving an associate or joint venture, the extent of gain or loss recognition depends on whether the assets sold or contributed constitute a business. The effective date of the amendments to IFRS 10, is yet to be determined, however early adoption is permitted. The Company has not yet adopted this standard and is assessing its impact on its consolidated financial statements.

IAS 1 – Presentation of Financial Statements ("IAS 1"). In January 2020, the classification of liabilities as current or non-current was amended. An entity shall apply the amendments for annual reporting periods on or after January 1, 2023, retrospectively in accordance with IAS 8 – Accounting Policies, changes in accounting estimates and errors. The Company has not yet adopted this amendment and is currently assessing the effects on its consolidated financial statements.

## CO2 GRO Inc.

### Notes to Unaudited Interim Consolidated Financial Statements

(expressed in Canadian dollars)

As at and for the 3 Months Ended March 31, 2021 and 2020

IAS 16 – Property, Plant and Equipment – Proceeds before Intended Use (“IAS 16”). The Standard was amended in 2020 to provide for the costs of testing whether a product is functioning properly in accordance with management’s expectations and the disclosure of those costs. An entity shall apply the amendments for annual reporting periods on or after January 1, 2022, with early adoption permitted. The Company has not yet adopted this amendment and is currently assessing the effects on its consolidated financial statements.

IAS 37 – Provisions contingent liabilities and contingent assets (“IAS 37”). The Standard was amended in May 2020 to expand on the definition of onerous contracts and the costs to be included in fulfilling a contract. An entity shall apply the amendments for annual reporting periods on or after January 1, 2022, with early adoption permitted. The Company has not yet adopted this amendment and is currently assessing the effects on its consolidated financial statements.

#### 4. Liquidity and capital resources

The Company’s main objective in managing capital is to ensure sufficient liquidity to pursue and fund product development, production, promotion and sales. Secondly, the Company strives to continue to fund research and development and pursue its growth strategy, while at the same time taking a conservative approach toward financial leverage and management of financial risk. The Company’s capital is considered to be its shareholders’ equity. The Company’s primary uses of capital are financing operations, increasing non-cash working capital and capital expenditures. The Company currently funds these requirements from existing cash resources and/or cash raised through the issuance of debt, common shares and/or warrants. The Company’s objectives when managing capital is to ensure the Company will continue to have enough liquidity so that it can provide its products and services to its customers and returns to its shareholders. The Company monitors its capital on the basis of the adequacy of its cash resources to fund its business plan. In order to maximize the capacity to finance the Company’s ongoing growth, the Company does not currently pay a dividend to holders of its common shares.

Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable.

There were no changes in the Company’s approach to capital management during the three months ended March 31, 2020 or the year ended December 31, 2020. The Company is not subject to any capital requirements by lending institution or regulatory body, other than by the continued listing requirements of the TSXV.

#### 5. Financial instruments and risk management

##### 5.1 Financial instruments

The Company’s financial instruments are detailed as follows:

	March 31, 2021	December 31, 2020
	\$	\$
Financial assets		
Cash	1,357,663	945,419

## CO2 GRO Inc.

### Notes to Unaudited Interim Consolidated Financial Statements

(expressed in Canadian dollars)

As at and for the 3 Months Ended March 31, 2021 and 2020

	March 31, 2021	December 31, 2020
	\$	\$
Accounts receivable	6,266	-
	1,363,929	945,419
Financial liabilities		
Accounts payable and accrued liabilities	234,055	301,868
Due to related parties	64,430	2,496
	298,485	304,364

The carrying and fair values of these financial instruments are approximately equivalent because of the short-term nature of these instruments.

#### Basis of fair values

Assets and liabilities recorded at fair value on the statement of financial position are classified using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

Level 1 – quoted prices (unadjusted) observed in active markets for identical assets or liabilities.

Level 2 – inputs other than quoted prices included in level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3 – inputs for the asset or liability that are not based on observable market data (unobservable inputs)

If the inputs used to measure the fair value of an asset or liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorized in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

The Company has no financial instruments carried at fair value to measure in the fair value hierarchy.

The Company recognizes transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred. There have been no significant transfers between levels during the year.

#### 5.2 Liquidity risk

Liquidity risk is the risk that an entity will encounter difficulty in meeting obligations associated with financial liabilities. As at March 31, 2021, the Company had \$270,773 (December 31, 2020 - \$309,709) of liabilities with a maturity of one year or less and working capital of \$1,398,367 (December 31, 2020 – \$904,281). The Company manages its liquidity risk by reviewing its growth plans on an ongoing basis.

## CO2 GRO Inc.

### Notes to Unaudited Interim Consolidated Financial Statements

(expressed in Canadian dollars)

As at and for the 3 Months Ended March 31, 2021 and 2020

#### 5.3 Credit risk

Credit risk is derived from cash and accounts receivable. The Company places its cash in deposit with major Canadian and United States financial institutions. The Company has established a policy to mitigate the risk of loss related to granting customer credit.

The carrying amount of cash and trade accounts receivable represents the Company's maximum exposure to credit risk, which amounted to \$1,363,929 at March 31, 2021 (December 31, 2020 - \$946,419). The allowance for doubtful accounts as at March 31, 2021 is \$2,089 (December 31, 2020 - \$nil). See note 6.

As at March 31, 2021 and December 31, 2020, the Company's accounts receivable, net of the allowance for doubtful accounts, was aged as follows:

	March 31, 2021	December 31, 2020
	\$	\$
Current	-	-
1 – 30 days	-	-
31 – 60 days	-	-
61 – 90 days	-	-
Over 90 days	6,266	-
	6,266	-

#### 5.4 Market risk

Market risk is the risk of loss that may arise from changes in market factors such as interest rates, foreign exchange rates, commodity prices and/or stock market movements (price risk). The Company is not subject to significant market risk.

#### 5.5 Currency risk

The Company's functional currency and the majority of its operations have been conducted in Canadian dollars. CO2 GRO occasionally conducts business in United States ("US") dollars. Financial assets and liabilities denominated in foreign currencies will be affected by changes in the exchange rate between the functional currency and these foreign currencies. The assets and liabilities primarily affected are cash, accounts receivable, and trade payables and accrued liabilities that are denominated in foreign currencies. The Company has recognized currency exchange losses during the 3 months ended March 31, 2021 of \$946 (2020 – gains of \$1,668).

Management believes foreign currency risk derived from currency conversions is negligible and therefore does not hedge its foreign exchange risk.

The Company's funds are kept in Canadian and US dollars at a major Canadian financial institution.

As at March 31, 2021 and December 31, 2020, the Company's exposure to foreign currency balances is as follows:

CO2 GRO Inc.

Notes to Unaudited Interim Consolidated Financial Statements

(expressed in Canadian dollars)

As at and for the 3 Months Ended March 31, 2021 and 2020

Account	Foreign currency	Exposure (\$Cdn)

#### 11. Deferred revenue

The Company generally charges customers an upfront payment that is due upon signing of the sales contract. Those amounts may be received prior to the Company fulfilling its performance obligation and recognizing the sales revenue (note 14). Amounts received and held by the Company for which its performance obligation has not been met, are recorded as deferred revenue. Upon completion of its performance obligations, the respective amount is transferred to revenue.

#### 12.2 Issued and outstanding

##### 2021:

In March 2021, 62,858 common shares were issued on the exercise of the same number of options. The options had an expiry date of January 22, 2022 and an exercise price of \$0.14 each, raising proceeds of \$8,800. The fair value of the exercised options of \$6,028 was transferred from contributed surplus to common shares.

In February 2021, 3,850,000 common shares were issued on the exercise of the same number of warrants. The warrants had an expiry date of December 14, 2022 and an exercise price of \$0.12 each, raising proceeds of \$462,000. The fair value of the exercised warrants of \$154,000 was transferred from reserve for warrants to common shares.

In February 2021, 1,081,061 common shares were issued on the exercise of the same number of options. The options had an expiry date of February 15, 2021 and an exercise price of \$0.22 each, raising proceeds of \$237,855. The fair value of the exercised options of \$54,362 was transferred from contributed surplus to common shares.

##### 2020:

In September 2020, the Company completed a private placement of 11,498,695 units at \$0.12 per unit, raising proceeds of \$1,379,844. Each unit comprised one common share and one common share purchase warrant. Each warrant is exercisable at \$0.15 until February 12, 2022, into one common share.

The relative fair value of \$491,532 for the warrants, was estimated using the Black Scholes option pricing model with the following assumptions: Common share price of \$0.15, term of eighteen months, risk-free rate of 2.9%, volatility of 124.6% and an exercise price of \$0.15.

Director and officer participation in the Financing amounted to \$179,843.

#### 12.3 Warrants

12.4 Contributed surplus

The Company has a 10% rolling stock option plan. Pursuant to the Plan, options to purchase common shares of the Company may be granted to certain officers, directors, employees and consultants of the Company. As at March 31, 2021, 3,787,081 options (December 31, 2020 – 1,185,972) are available for issuance under the Plan.

The principal features of the Plan are as follows:

- (a) the maximum aggregate number of common shares that may be allocated and made available to be granted to participants under the Plan is 10% of the issued and outstanding common shares of the Company, less the number of options currently issued;
- (b) the aggregate number of common shares that may be reserved for issuance pursuant to options granted to Insiders (defined as (a) a director or senior officer of the Company; (b) a director or senior officer of a "company" (as defined in the TSX Venture Exchange ("TSXV") policies) that is an Insider or subsidiary of the Company; (c) a "person" (as defined in TSXV policies) that beneficially owns or controls, directly or indirectly, "voting shares" (as defined in TSXV policies) carrying more than 10% of the voting rights attached to all outstanding voting shares of the Company; or (d) the Company itself if it holds any of its own securities) shall not exceed 10% of the issued and outstanding common shares (on a non-diluted basis) without the consent of disinterested shareholders;
- (c) the aggregate number of options that may be granted to all Insiders within a 12-month period shall not exceed 10% of the issued and outstanding common shares (on a non-diluted basis) without the consent of disinterested shareholders;
- (d) the aggregate number of options that may be granted to any one individual within a 12-month period shall not exceed 5% of the issued and outstanding common shares (on a non-diluted basis) without the consent of disinterested shareholders;

- (e) the aggregate number of options that may be granted to any one “consultant” (as defined in the TSXV policies) within a 12-month period shall not exceed 2% of the issued and outstanding common shares (on a non-diluted basis); and
- (f) the aggregate number of options that may be granted to all employees conducting “investor relation activities” (as defined in the TSXV policies) within a 12-month period shall not exceed 2% of the issued and outstanding common shares (on a non-diluted basis).

A continuity of the unexercised options to purchase common shares is detailed in the following table:

	March 31, 2021		December 31, 2020	
	Weighted Average Exercise Price	Number of Options	Weighted Average Exercise Price <sup>1</sup>	Number of Options
	\$		\$

<b>Exercisable at end of period</b>	<b>0.17</b>	<b>4,473,891</b>	<b>0.19</b>	<b>6,225,598</b>

The following table provides additional information about outstanding stock options at March 31, 2021:

Exercise Prices	No. of Options Outstanding	Weighted Average Remaining Life (Years)	Weighted Average Exercise Price (\$)
\$0.10 to \$0.15	2,065,285	1.7	0.15
\$0.16 to \$0.20	2,608,606	1.7	0.19
<b>Outstanding</b>	<b>4,673,891</b>	<b>1.7</b>	<b>0.17</b>
<b>Exercisable</b>	<b>4,473,891</b>	<b>1.7</b>	<b>0.17</b>

The Black-Scholes option pricing model was used to estimate the fair value of the issued options. The weighted average assumptions used for the options issued in 2020, were as follows: risk-free interest rate of 0.63%; expected volatility of 134.1%; expected life of 2.9 years; expected dividends of \$nil and weighted average common share price of \$0.14. The grant-date fair value of the options issued in 2020 is \$192,000.

#### 17. Significant contracts, commitments and contingencies

##### 17.1 Legal proceedings

The Company is, from time to time, involved in various claims and legal proceedings. In October 2019, the Company was served with a statement of claim filed in the Ontario Superior Court of Justice against the Company and two Officers. The case pertains to alleged breaches of non-competition agreements by these Officers and claims damages and an injunction against them and the Company. The Company's lawyers are managing the claim and are vigorously defending against this action.

The Company cannot reasonably predict the likelihood or outcome of these activities. The Company does not believe that adverse decisions in any ending or threatened proceedings related to any matter, or any amount which may be required to be paid by reasons thereof, will have a material effect on the financial condition or future results of operations.

##### 17.2 Novel Coronavirus ("COVID-19")

The Company's operations could be significantly adversely affected by the effects of a widespread global outbreak of a contagious disease, including the continued outbreak of respiratory illness caused by COVID-19. The Company cannot accurately predict the impact COVID-19 will have on its operations and the ability of others to meet their obligations with the Company, including uncertainties relating to the ultimate geographic spread of the virus, the severity of the disease, the duration of the outbreak, and the length of travel and quarantine restrictions imposed by governments of affected countries. In addition, a significant outbreak of contagious diseases in the human population could result in a widespread health crisis that

could adversely affect the economies and financial markets of many countries, resulting in an economic downturn that could further affect the Company's operations and ability to finance its operations.

**18. Segmented information**

**Operating segments**

CO2 GRO's sole focus is commercializing its patent-licensed CO2 gas infusion technology license and its patent-pending Delivery Solutions™, both of which form the Company's Dissolved CO2 plant-production platform. As such, the Company's operating segment information is the same as that reported in the Consolidated Financial Statements.

**Geographic segments**

CO2 operates in two geographic segments being Canada and the United States.
