

CO2 GRO Inc. is Pleased to Announce it will Present at The 2021 CG AgriFood Tech Innovation Virtual Forum organized by Canaccord Genuity

TORONTO, ON – November 29, 2021 (ACCESSWIRE) – Toronto based CO2 GRO Inc. (“**GROW**”) (TSXV: GROW, OTCQB: BLONF, Frankfurt: 4021) is pleased to announce that it has been invited to present at the **2021 CG AgriFood Tech Innovation Virtual Forum** organized by Canaccord Genuity on Thursday December 2nd, 2021. If you would like to attend please register [here](#).

Key Themes of the Forum are;

- Ag Biologics
- Data/Farm Management Solutions/ Connected Devices
- Integrated Farm Platform Solutions
- Food Preservation/Waste Reduction
- Alternative Proteins/Plant based/Food Tech Products & Ingredients
- Controlled Environment Agriculture
- ESG/Carbon Initiatives
- Supply Chain Management
- eCommerce/Food Delivery

The 2021 CG AgriFood Tech Innovation Virtual Forum is a series of presentations that will showcase 64 highly relevant innovators across a broad spectrum of the agriculture and food system. The intent is to highlight investable opportunities where technological and other advancements are helping to enable sustainable food production for a growing global population with limited natural resources.

CO2 GRO will provide a comprehensive overview of how its CO2 Delivery Solutions™ technology is revolutionizing the 600 billion square foot global protected agriculture market. These growers have the potential to increase yields by up to 30% and profits by up to 100% while lowering their carbon footprint per

unit of yield and suppressing the development of micro-pathogens such as *E.coli* and powdery mildew, naturally.

About The Canaccord Genuity Group Inc. [Canaccord Genuity Group](#)

Through its principal subsidiaries, the Company is a leading independent, full-service financial services firm, with operations in two principal segments of the securities industry: wealth management and capital markets. Since its establishment in 1950, the Company has been driven by an unwavering commitment to building lasting client relationships. We achieve this by generating value for our individual, institutional and corporate clients through comprehensive investment solutions, brokerage services and investment banking services.

After almost two decades of focusing on Sustainability, our team understands that this global marketplace is defined by innovation. We combine a deep industry knowledge with a global perspective to businesses that offer solutions or services to address the efficient management, utilization or development of resources. Our clients include innovators in all areas of sustainability practices.

About CO2 GRO Inc. [CO2 GRO Inc.](#)

CO2 GRO's proprietary CO2 Delivery Solutions™ technology is revolutionizing the global 600 billion square foot protected agriculture industry (Cuesta Roble 2019). We create a dissolved CO₂ solution that when misted onto plants provides growers that cannot gas with CO₂ the opportunity to increase plant yields by up to 30% and profits by up to 100%. Applying dissolved CO₂ also suppressed the development of pathogens such as *E.coli* and powdery mildew, helping to reduce crop losses. CO2 GRO's CO2 Delivery Solutions™ is protected by a suite of patents and patents pending.

The worldwide market for CO2 GRO's disruptive CO2 Delivery Solutions™ technology is the 50 billion square feet of greenhouses and 550 billion square feet of protected agriculture facilities (Cuesta Roble 2019). Growers can maximize revenue and profits with our systems' low fixed and variable costs and ease of systems installation.

CO2 GRO's management is rapidly expanding its international marketing partner relationships into Mexico, Spain, the EU, the UK, South Africa, the Middle East, South East Asia and Latin America as well as in its North American base.

CO2 GRO is committed to good Environment, Social and Governance (ES&G) policy and practices. We are an equal opportunity employer of choice and opportunity.

Our mission is to accelerate the growth of all value plants safely, economically, naturally and sustainably using our patented advanced CO2 Delivery Solutions™ while accreting value to our customers, stakeholders and shareholders.

Forward-Looking Statements

This press release contains statements which constitute “forward-looking information” within the meaning of applicable securities laws, including statements regarding the plans, intentions, beliefs and current expectations of the Company with respect to future business activities. Forward-looking information is often identified by the words “may,” “would,” “could,” “should,” “will,” “intend,” “plan,” “anticipate,” “believe,” “estimate,” “expect” or similar expressions and include information regarding: statements regarding the future direction of the Company; the ability of the Company to successfully achieve its business and financial objectives; plans for expansion and the ability of the Company to obtain, develop and foster its business relationships; and expectations for other economic, business, and/or competitive factors. Investors are cautioned that forward-looking information is not based on historical facts but instead reflect the Company’s management’s expectations, estimates or projections concerning the business of the Company’s future results or events based on the opinions, assumptions and estimates that management considered reasonable at the date the statements are made. Such assumptions include but are not limited to: general business and economic conditions; the Company’s ability to successfully execute its plans and intentions; the availability of financing on reasonable terms; the Company’s ability to attract and retain skilled staff; market competition; the products and technology offered by the Company’s competitors; and that good relationships with business partners will be maintained. Although the Company believes that the expectations reflected in such forward-looking information are reasonable, such information involves risks and uncertainties, and undue reliance should not be placed on such information, as unknown or unpredictable factors could have material adverse effects on future results, performance or achievements. Among the key factors that could cause actual results to differ materially from those projected in the forward-looking information are the following: changes in general economic, business and political conditions, including changes in the financial markets; in particular, in the ability of the Company to raise debt and equity capital in the amounts and at the costs that it expects; adverse changes in applicable laws or adverse changes in the application or enforcement of current laws; the biotechnology industry and the greenhouse growers market are highly competitive, and technical advances in the industry will impact the success of the Company, and other risks described in the Company’s filings that are available at www.sedar.com. Should one or more of these risks or uncertainties materialize, or should assumptions underlying the forward-looking information prove incorrect, actual results may vary materially from those described herein as intended, planned, anticipated, believed, estimated or expected. Although the Company has attempted to identify important risks, uncertainties and factors which could cause actual results to differ materially, there may be others that cause results not to be as anticipated, estimated or intended. The Company does not intend, and does not assume any obligation, to update this forward-looking information except as otherwise required by applicable law.

Neither the TSX Venture Exchange nor its Regulation Services Provider (as that term is defined in the policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of this release.
