

## **CO2 GRO Inc. Provides a Review of its Participation at the 10<sup>th</sup> Annual Japan Plant Factory Association Conference**

**TORONTO, ON – September 23, 2021** (ACCESSWIRE) – Toronto based CO2 GRO Inc. (“**GROW**”) (TSXV: GROW, OTCQB: BLONF, Frankfurt: 4021) is pleased to provide a summary of attending and presenting at the Japan Plant Factory Conference (“**JPFA**”) held virtually from September 14<sup>th</sup> to 16<sup>th</sup>, 2021.

GROW joined the JPFA in early September 2021 after announcing its first Japanese commercial feasibility on August 16<sup>th</sup>, 2021 with one of JPFA’s 221 members. GROW was invited to present its CO2 Delivery Solutions™ technology to an exclusive member only forum. Several greenhouse growers expressed interest in the technology’s benefits which include increased plant production, lower CO<sub>2</sub> use and costs, protection from pathogens, increased profitability and the reduction of a grower’s ecological footprint, regardless of the type of protected grow structure.

Aaron Archibald, VP Sales and Strategic Alliances stated, “Japan was one of the first countries to develop and adopt high-tech *Controlled Environment Agriculture* (CEA) greenhouses and indoor growing facilities. Being an island exposed to long food supply chains, the government has strongly supported local produce growers and food suppliers. This JPFA virtual conference and our ongoing membership is a highly effective way to introduce our CO2 Delivery Solutions™ to Japan’s 5 billion square foot protected ag market which is on par with Spain and Mexico’s protected ag markets. We believe we can provide significant benefits to protected ag growers in Japan including increased yields, increased profits and the reduction of ecological footprints”

Visit [www.co2delivery.ca](http://www.co2delivery.ca) for more information on CO2 Delivery Solutions™ or [watch this video](#). To see a CO2 Delivery Solutions™ VCO2 system installation, [watch this video](#).

### **About CO2 GRO Inc. ([CO2 GRO Inc.](#))**

GROW’s proprietary CO2 Delivery Solutions™ technology is revolutionizing the global 600 billion square foot protected agriculture industry (Cuesta Roble 2019). We create a saturated CO<sub>2</sub> solution that when misted onto plants provides growers

that cannot gas with CO<sub>2</sub> the opportunity to increase plant yields by up to 30% and profits by up to 100%. Applying saturated CO<sub>2</sub> also suppressed the development of pathogens such as *E.coli* and powdery mildew, helping to reduce crop losses. GROW's CO<sub>2</sub> Delivery Solutions™ is protected by a suite of patents and patents pending.

The worldwide market for GROW's disruptive CO<sub>2</sub> Delivery Solutions™ technology is the 50 billion square feet of greenhouses and 550 billion square feet of protected agriculture facilities (Cuesta Roble 2019). Growers can maximize revenue and profits with our systems' low fixed and variable costs and ease of systems installation.

GROW's management is now putting more focus on deepening its existing Mexico footprint and others in the EU, Spain, the UK, South Africa, the Middle East, South East Asia, Latin America and now Japan as well as in its North American base.

GROW is committed to good Environment, Social and Governance (ES&G) policy and practices. We are an equal opportunity employer of choice and opportunity.

Our mission is to accelerate the growth of all value plants safely, economically, naturally and sustainably using our patented advanced CO<sub>2</sub> Delivery Solutions™ while accreting value to our customers, stakeholders and shareholders.

### **Forward-Looking Statements**

*This press release contains statements which constitute "forward-looking information" within the meaning of applicable securities laws, including statements regarding the plans, intentions, beliefs and current expectations of the Company with respect to future business activities. Forward-looking information is often identified by the words "may," "would," "could," "should," "will," "intend," "plan," "anticipate," "believe," "estimate," "expect" or similar expressions and include information regarding: statements regarding the future direction of the Company; the ability of the Company to successfully achieve its business and financial objectives; plans for expansion and the ability of the Company to obtain, develop and foster its business relationships; and expectations for other economic, business, and/or competitive factors. Investors are cautioned that forward-looking information is not based on historical facts but instead reflect the Company's management's expectations, estimates or projections concerning the business of the Company's future results or events based on the opinions, assumptions and estimates that management considered reasonable at the date the statements are made. Such assumptions include but are not limited to: general business and economic conditions; the Company's ability to successfully execute its plans and intentions; the availability of financing on reasonable terms; the Company's ability to attract and retain skilled staff; market competition; the products and technology offered by the Company's competitors; and that good relationships with business partners will be maintained. Although the Company believes that the expectations reflected in such forward-looking information are reasonable, such information involves risks and uncertainties, and undue reliance should not be placed on such information, as unknown or unpredictable factors could have material adverse effects on future results, performance or achievements. Among the key factors that could cause actual results to differ materially from those projected in the forward-looking information are the following: changes in general economic, business and political conditions, including changes in the financial markets; in particular, in the ability of the Company to raise debt and equity capital in the amounts and at the costs that it expects; adverse changes in applicable laws or adverse changes in the application or enforcement of current laws; the biotechnology industry and the greenhouse*

*growers market are highly competitive, and technical advances in the industry will impact the success of the Company, and other risks described in the Company's filings that are available at [www.sedar.com](http://www.sedar.com). Should one or more of these risks or uncertainties materialize, or should assumptions underlying the forward-looking information prove incorrect, actual results may vary materially from those described herein as intended, planned, anticipated, believed, estimated or expected. Although the Company has attempted to identify important risks, uncertainties and factors which could cause actual results to differ materially, there may be others that cause results not to be as anticipated, estimated or intended. The Company does not intend, and does not assume any obligation, to update this forward-looking information except as otherwise required by applicable law.*

*Neither the TSX Venture Exchange nor its Regulation Services Provider (as that term is defined in the policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of this release.*
