

Mr. Bright

FACTSHEET

Hello new friends, We're pretty excited to be included in your dental care routine for the next 2 weeks and to be on your store shelves. Since we'll be spending so much time together, let's take a moment to get to know each other...

MR BRIGHT IS PEROXIDE FREE

Mr Bright is one of the only teeth whitening products on the markets to not contain any form of peroxide as the active ingredient.

Here are some reasons why we are peroxide free:

WEAKENS TEETH

HARSH ON CROWNS AND FILLINGS

CAUSES SENSITIVE TEETH

BLEACHES & IRRITATES THE GUMS

LOSS OF ENAMEL

BUT WE DIDN'T STOP THERE.

We crammed as many natural ingredients as we could that would make our formula one of the strongest take-home formulas available. Take a look...

GLYCERIN: is included for its effectiveness at delivering teeth whitening agents deep into the enamel, providing fast results.	SODIUM BICARBONATE: also known as baking soda, is how we naturally whiten and clean your teeth.	CRANBERRY: helps to dissolve plaque, making it easier for the whitening agents to penetrate into the enamel
XYLITOL: is a natural sweetener helps to reduce tooth decay and treat dry mouth.	ALOE VERA: helps to soothe and moisturise the mouth.	ORGANIC PEPPERMINT OIL: leaves your breath smelling and feeling fresh.

Mr Bright wants to be a friend you can always count on and trust. What's important to you is important to us. You can always count on us to have products that are:

VEGAN FRIENDLY | **NOT TESTED ON ANIMALS** | **DAIRY FREE** | **SOY FREE** | **GLUTEN FREE** | **NO PEG NO PPG** | **NO LATEX PARABENS OR SULFATES** | **KOSHER INGREDIENTS** | **NO GMO** | **NO ARTIFICIAL COLOURS OR FLAVOURS**

With all this goodness, it's easy to assume our formula isn't as effective as those with peroxide or other harsh chemicals.

But what if we told you our formula can get your teeth up to **8 SHADES WHITER IN 2 WEEKS?**

AND THAT WE ARE CLINICALLY PROVEN. Yep, we sat in the dentist chair so you didn't have to.

Mr Bright also **REDUCES TOOTH DECAY DISCOLOURATION & REMOVES DEEP ENAMEL STAINS.**

READY TO GET STARTED?

WE LOOK FORWARD TO WORKING WITH YOU & KEEPING YOU SMILING BRIGHT.

STEP 1.

Apply 1/4 of a gel solution to the top and bottom of the mouth tray.

STEP 2.

Simply attached the LED light onto mouth tray and insert into mouth.

STEP 3.

Sit back and relax for 20-30 minutes to reveal a brighter new smile.

STEP 4.

Repeat daily for 6 days, then have 1 day break and repeat the following week.
