HYDRATION PACKS AND BACKPACKS

Eco-conscious design with recycled and repurposed materials.

The Eco-Hydrobak and Eco-Arete Backpack both have **waterless-dyed linings**. The waterless dyeing process uses virtually no water and fewer chemicals, while faster dyeing cycles sharply reduce energy consumption.

The Pivot RollTop Backpack is made from **50% repurposed materials**, diverting single-use plastics from waste streams. (Fun Fact: This bag is made with the equivalent of 11 plastic water bottles.)
