

Amaircare HEPA filtration systems help solve all 3 categories of air pollution!

PARTICULATES

BIOBURDEN

V.O.C.'s
(VOLATILE ORGANIC COMPOUNDS)

ROOMAID

Amaircare's small, but mighty HEPA system. Perfect for offices or in your hotel room while travelling.

Auto Kit available.
Delivered Airflow: 20-40 C.F.M. (Cubic Feet per Minute)
Dimensions: 8.5" round, 7.5" high
Control: 3 position, 2 speed switch
Outflow: 360°

2500

One of Amaircare's most popular portable systems. Good for cleaning large rooms or specific areas.

Delivered Airflow: 175 C.F.M. (Cubic Feet per Minute)
Dimensions: 16" hex, 13.5" high
Control: Electronic Keypad
Outflow: Vents on 4 (of 6) sides, vented downward

3000

Amaircare's most powerful portable system. Good for cleaning very large rooms or several open rooms.

Delivered Airflow: 225 C.F.M. (Cubic Feet per Minute)
Dimensions: 16" hex, 23" high
Control: Electronic Keypad
Outflow: Vents on 4 (of 6) sides, vented downward

PURE AIR HEPA 1000UV

Pure Air HEPA 1000 UV Whole Home Duct Mount HEPA Air Cleaning System.

The Pure IAQ UV HEPA 1000 is the ultimate air purification system for people with chemical sensitivity or just concerned with the amount of chemicals in our indoor air. This system does not only remove dust and very small particulate with the HEPA filter it neutralizes many airborne house hold chemicals.

This patent pending combination uses HEPA, UVC germicidal light (non ozone producing) and PCO (photo catalytic oxidation). It removes and destroys atmospheric dust, odours, biological and chemical contaminants.

◆ DIRECT DUCT MOUNT INSTALLATION

- ◆ CARBON PREFILTER
- ◆ HEPA FILTER
- ◆ PCO FILTER
- ◆ UVC GERMICIDAL LIGHTS
- ◆ CARBON/POTASSIUM FILTER

SAUNACORE™

HORIZON PURITY SERIES

Far Infrared saunas that are made from selected woods, such as western red cedar and American poplar, that have been treated with non-harmful substances. No synthetic glues, dyes or finishing sprays are used at any stage of production. The interior has stainless steel grills, housing and solid medical grade ceramic heaters.

Ceramic Infrared Heater • Temperature: 100°F-140°F • Heat: Dry, gentle, radiant • Pre-Heat Time: 10-20 minutes • Power Required: 1400-1800 watts/120V • Energy Cost: \$4-\$5/month
Sweat Analysis: 15-20% toxins, 80-85% water • Can be easily moved • Minimal Maintenance

4'x4' HORIZON PURITY SERIES

4'x5' HORIZON PURITY SERIES SAUNA (POPLAR WOOD)
