

OUR PHILOSOPHY

Our philosophy is simple: we believe that health is one of the most important investments you can make, and that every person (and their home and office) deserves to have a healthy environment. An environment enriched with **CLEAN, PURIFIED AIR, THUS ALLOWING FOR A BETTER STANDARD OF LIVING AND A HEALTHIER SOCIETY AS A WHOLE.**

Pure Air Experts is staffed with environmental experts who have been in the business for over 20 years. In addition, we have relationships with many doctors of environmental medicine, so we have the most current information about the relationship between clean air and long, sustainable living.

Our in-home assessment is the corner stone of how we operate. We show what families are breathing in their home and workplace and then offer **PROVEN, EFFECTIVE SOLUTIONS** to purify the air and their surrounding environment.

TESTIMONIALS

There is increasing evidence in scientific literature about the need for good indoor air quality. I recently had the pleasure of having Jeff McArthur from Pure Air Experts assess the air quality in my home and office. After finding some concerns about the air quality in my home, he performed some maintenance work on the ducting and installed a filtering unit to clean and purify the air. The difference in the air quality is noticeable and remarkable. I highly recommend that people secure good air quality in their homes and work places.

I have appreciated the work that Pure Air Experts has done in my home.

*Dr. Stephen J. Genuis
MD, FRCSC, DABOG, DABEM, FAAEM
Clinical associate professor – University of Alberta*

*My family and I would like to express our sincere appreciation for the great service you provide. Our home air has improved greatly due to the HEPA installation, also can't believe how little dust is now present on my furniture!
Your employees were pleasant as well as efficient, providing proper customer service, we were satisfied with each stage of the whole process. Thank you for a great experience!*

*Sincerely,
Rob & Linda*
