

Power Unit Choices for Every Homeowner!

ELEMENT® PERMANENT SELF-CLEANING FILTER POWER UNIT

3 units for homes up to 12,000 sq. ft.

ELEMENT® DISPOSABLE BAG POWER UNITS

5 units for homes up to 22,000 sq. ft.

HASSLE-FREE TECHNOLOGY

- Proven dual-filtration combines cyclonic action and a permanent, self-cleaning filter
- Hassle-free cleaning performance
- Perfect for no-vent installations
- Optional exterior venting

HASSLE-FREE MAINTENANCE

- No bags or filters to replace

CONVENIENT

- Cleans ALL interior surfaces and furnishings
- Canister inlet valve provides powerful cleaning where power unit is located (basement or garage)
- Clear dirt canister for easy viewing of dirt level

POWERFUL CLEANING

- Maximum power and cleaning performance
- Up to 5 times more powerful than uprights

HEALTHIER LIVING

- Improves in-home air quality
- Removes 100% of vacuumed dirt, dust and allergens from your home – no recirculation back into the air you breathe

WARRANTY: Limited Lifetime + 1

DIRTLESS TECHNOLOGY

- Eliminates your exposure to dirt and dust for a completely dirtless experience
- CleanShield® Disposable Bag seals in dirt for easy disposal – no canister to empty
- Permanent CarbonCapture® Filter traps carbon dust on three larger units – no replacing
- Optional exterior venting

LOW MAINTENANCE

- Durable bags typically replaced 2-3 times/year

CONVENIENT

- Cleans ALL interior surfaces and furnishings

POWERFUL CLEANING

- Up to 5 times more powerful than uprights
- No performance lost as CleanShield bag fills
- If bag becomes too full, may see a decline in performance until the bag is replaced

HEALTHIER LIVING

- Improves in-home air quality
- Removes 100% of vacuumed dirt, dust and allergens from your home – no recirculation

WARRANTY: Limited Lifetime +1
