

CLEAN POWER PACKAGE

All-in-one conditioning standby power system designed for traffic intersections.

Clean Power Package

PN#: 5200#15774

Complete power conditioning to ensure clean power to your traffic cabinet:

- Peek Clean Power AC sinewave output
- FCC Class A, Noise Suppression
- Transient voltage protection from damaging line spikes
- Temperature-compensated charging maximizes battery life

Low Battery Alert integration to leading controllers such as Peek ATC1000

Complete Browser based power management

Powers a 700W intersection for 4 hours, followed by 2 hours at 350W

Convenient, one part number (5200#15774) package includes:

- Peek Battery Backup System (BBS) cabinet
- Peek PowerBack 2000 ITS
- Peek Power Transfer Switch (PTS) panel
- Four 134 AH batteries
- Cables and Harnesses
- Convenient Ethernet connectivity

The Peek Clean Power Package provides full-time power conditioning and emergency backup power to traffic cabinets whenever normal electric power is lost. Increases or decreases voltage to maintain normal operation during brownouts and power spikes, reducing dangerous intersection collisions due to dark signals, saving law enforcement and emergency personnel resources. Minimizes component damage and signal tech callouts due to power failures.

All comes in an economical, ready to install package.
