About Us

Active Watch is a worldwide video monitoring company that uses advanced technology to provide "real time" live remote video monitoring service. We have been providing video monitoring service to customers since 2006 throughout Europe and North America.

Our security measures do not rely on triggers or sensors such as motion detectors or door and window sensors. Our monitoring agents are the sensor that detect any suspicious activity.

Through our extensive network of partners, Active Watch provides the most effective security solution at a cost-effective price.

Active Watch's remote monitoring solution is a proactive and verified approach to protecting properties and assets.

Remote Video Monitoring

Real time remote video monitoring is the most effective security solution and the preferred method by law enforcement. As a verified security solution, law enforcement will react immediately to live events.

As of 2016, law enforcement in many US states and Canadian provinces will not respond to alarms due to high volume of false alarms. Police will only respond to verified security solutions which is video verification offered by Active Watch.

Advantages

8

RVM is proactive instead of reactive

Active Watch is a proactive approach to protecting property and lives. We watch, while you sleep.

Round the clock monitoring

We offer continuous live remote video surveillance services as the best solution for you to maximize your investment in surveillance and security.

Saving money

You can save costs on theft / damage and on your insurance deductibles

Immediate response from law enforcement

Police respond immediately while our monitoring agents continue to have direct two -way communication to guide them to the event

Customized “Voice Downs”

Deters criminal activity and creates security awareness especially when using customized “Voice Downs”.

Generate daily reports

We can generate reports on the status of the actions in your environment, based on criteria that you specify.

Active Watch is proactive instead of reactive

9

Active Watch's monitoring agents acts as your virtual guard protecting your assets .

Reduce amount of false alarms.

Deter criminal activity & create security awareness with customized "Voice Downs".

Save costs on security guards or security patrols that have been proven to be ineffective

24/7 remote operation center

10

- 1 | Monitoring station is in Europe with operators providing 24 hours surveillance ready to alert if there is an incident.
- 2 | Our monitoring station has no contact with the employees of sites that are being monitored as 70% commercial crime is committed by disgruntled former employees.
- 3 | Operators only see what is on their screen and follow the protocols if an incident happens.
- 4 | All our agents go through extensive background check and are trained by seasoned security specialists.

Protocols and how they look

SECURITY PROTOCOL
STRICTLY PRIVATE AND CONFIDENTIAL

ACTIVE WATCH

Customer: ABC Construction
Site Address: 17982 88th Ave

Security Company: (none)
City: Cloverdale (Surrey), BC, V3S 1C7

Surveillance Schedule:
Monday – Friday: 6 pm – 7 am
Saturday: 5PM – 8AM
Sunday & Holidays: 24hours

Password: MAMBA

Protocol

WORKERS APPEAR TO BE ON SITE

Workers will be on site from approximately 07:00 AM to approximately 06:00 PM, Monday to Friday, 07:00 AM to approximately 05:00 PM Saturday.

In case you see workers on site during monitoring hours, and their presence was not preauthorized, please call the contact list above and inquire if the workers are authorized to be on site.

- Call contact #1 Bobby Filay, 604-808-7479, if no answer, leave a voice mail.

INTRUSION/TRESPASSING

If any intruders are observed inside the fence line of the construction site:

- Call the RCMP in Surrey 604-999-7367 and report what is being observed, then
- Call contact #1 Bobby, 604-808-7479, if no answer, leave a voice mail, then
- Send an email report to Gord Firth at gordfirth@ABCconstruction.com and present the situation.

POWER LOSS:

- Call contact #1 Bobby Filay, 604-808-7479, if no answer, leave a voice mail

Protocols are established with each client to ensure who is dispatched in case of an event. We engage with our customer to develop protocols that is appropriate for their application.

These protocols are outlined in detail so that the right people are dispatched when a incident occurs. For example, in case of fire, 911 is immediately dispatched instead of contacting the owner of the company first.

Protocols are reviewed every 4-6 months with our clients.
