Arbitration Place and CAM-CCBC Announce Strategic Partnership, Expanding Operations into Brazil and Canada

TORONTO / SÃO PAULO, June 8th, 2026 – Arbitration Place and the Center for Arbitration and Mediation of the Chamber of Commerce Brazil-Canada (CAM-CCBC) Brazil's leading institution for the administration of arbitration, mediation, and other dispute resolution proceedings, have announced a strategic partnership that strengthens ties between the Canadian and Brazilian dispute resolution markets. This reciprocal collaboration establishes a physical and operational presence for both institutions in each other's primary jurisdictions.

Through this collaboration, **Arbitration Place** will establish **Arbitration Place Brazil at CAM-CCBC**, bringing its signature fully integrated dispute resolution model to one of Latin America's leading arbitration jurisdictions. Pioneered in Canada and successfully expanded across the United States and internationally, the model combines a roster of internationally renowned arbitrators and mediators, world-class hearing facilities, and a comprehensive suite of services.

Equally, **CAM-CCBC** establishes **CAM-CCBC Canada at Arbitration Place**, building on **CAM-CCBC's** connection to Canada through its Brazil-Canada foundation and institutional identity. This expansion provides direct access to **Arbitration Place's** state-of-the-art facility—Canada's premier hearing centre—to support **CAM-CCBC**-administered proceedings, meetings, conferences, and related initiatives.

For both organizations, this collaboration marks a significant step in their continued global expansion. As part of the partnership, **Arbitration Place** will serve as a preferred vendor to **CAM-CCBC**, enabling parties to access Portuguese real-time court reporting services for proceedings conducted in Portuguese. This will combine experienced Portuguese real-time court reporters, certified human transcription support, and AI-supported transcription options for in-person, virtual, and hybrid proceedings.

These capabilities form part of **Arbitration Place's** broader fully integrated hearing services model, presenting a centralized single point of contact to coordinate the essential components required for arbitrations, mediations, examinations for discovery, depositions, and related proceedings. This includes real-time court reporting and transcription, document management and evidence presentation systems, interpretation and translation, legal videography, virtual hearing management, technical support, and related hearing offerings, all delivered with concierge-level attention to detail in Portuguese, English, and other languages as required.

"**Arbitration Place** Brazil at **CAM-CCBC** marks an important milestone in our continued global expansion, and we are proud to bring our signature fully integrated service model to one of Latin America's most sophisticated arbitration markets. **CAM-CCBC** is Brazil's leading dispute resolution institution, with a distinguished presence across Latin America and a longstanding connection to Canada. This partnership builds on that strong foundation by bringing **Arbitration Place's** comprehensive suite of integrated hearing services, concierge-level support, and international roster of preeminent arbitrators and mediators to **CAM-CCBC's** world-class hearing facility and the broader Brazilian market. We are excited to serve this dynamic hub and to work with **CAM-CCBC** to deepen the connection between Brazil, Canada, and the broader international arbitration community", said **Jeffrey Mandell**, Chairman and CEO of **Arbitration Place**.

"Establishing **CAM-CCBC** Canada at **Arbitration Place** is a natural evolution of our historic ties with Canada and a major step in our internationalization strategy. This partnership not only provides our users with direct access to world-class facilities in Toronto but also brings **Arbitration Place's** exceptional integrated services and technological innovations to Brazil. Together, we are building a seamless, high-quality bridge for the global dispute resolution community" added **Rodrigo Garcia da Fonseca**, President of **CAM-CCBC**.

ARBITRATION PLACE

An all-encompassing approach

About Arbitration Place – An All-Encompassing Approach.

Arbitration Place is a one-stop provider for every aspect of arbitrations, mediations, examinations for discovery, depositions, and related proceedings, seamlessly delivered through a single, integrated service model.

As a NEUTRAL service provider, **Arbitration Place** supports both ad hoc and institutional arbitrations, offering everything from individual services to complete end-to-end solutions. This

model eliminates the inefficiencies of fragmented service delivery by reducing complexity, saving costs, and ensuring that every proceeding is managed to the highest professional standard.

With more than 30 years of experience supporting domestic and international arbitrations and thousands of hearings across multiple jurisdictions, **Arbitration Place** understands the nuances of dispute resolution, allowing arbitrators and counsel to focus on their cases while managing every operational detail. Recognized as one of the world's leading alternative dispute resolution companies, **Arbitration Place** has operations in Toronto, Montreal, Ottawa, New York, Miami, Brazil, Bermuda and the Cayman Islands, as well as alliances with key arbitration centres in London, Paris, Singapore, Hong Kong, Abu Dhabi, Astana, and Mauritius.
